Planned Location/s for session: (route, location and environment appropriate for topic and the learners level of skill)

The lesson will take place in a busy area and on motorways.

Revision and basic knowledge test about this lesson topic

Suggested time: 5 minutes

Confirms what the learner must already know and do before attempting the lesson (instructor tip: Confirm learning by questioning and through student practical demonstration of skills from previous lesson)

Get a practical demonstration from the student in a suitable training area that requires the student to practice low risk driving and scanning further ahead at higher speeds and accurately measuring the distances from the vehicle in front.

Ask the student:

What is the max speed an L driver can travel on the motorway?
What is the max speed a Red P driver can travel on the motorway?

What do these signs mean?

Introduction (Recap of previous topic, if applicable) Suggested time: 5 minutes

Learning Goals to be covered during the lesson: (Learning goals are to be taken from the Learner Driver Logbook) (Instructor tip: Ask the learner questions to confirm understanding of the topic before proceeding)
